# Tapco SUPERMAX

Improved and strengthened in every department, the Supermax is the most powerful portable bending machine on the market.

## Key Features

- 33% bending capacity increase making it the strongest portable brake available.
- Constructed using lightweight anodized alloys and toughened steel for maximum strength, durability and portability.
- Capable of producing perfect bends in 1,0mm Steel, 1,5mm Aluminum and 1,0mm Zinc. The Supermax is also capable of 180° Hemming.
- Use with the Max Cut-Off or Power Cut-Off for cutting perfectly straight narrow strips in lengths of Steel, Aluminum or Zinc.
- Improved version of the Patented 'Moving Pivot Hinge' enables quicker and easier adjustment of the clamping tension on material.
- 50cm throat depth with a 6.0cm mouth opening - the largest in the industry.
- Strengthened stand design with the option to anchor to the workshop floor resulting in accurate repeat bends.

## Specifications

Model	SUPERMAX 8' (INCLUDING SNAP STAND, CUT OFF, TUNE UP KIT)	SUPERMAX 10' (INCLUDING SNAP STAND, CUT OFF, TUNE UP KIT)	SUPERMAX 12' (INCLUDING SNAP STAND, CUT OFF, TUNE UP KIT)	SUPERMAX 14' (INCLUDING SNAP STAND, CUT OFF, TUNE UP KIT)
Working Length	2600mm	3200mm	3800mm	4040mm
<b>BEND CAPACITY</b>	Mild Steel	1mm	1mm	1mm
	Aluminum	1.5mm	1.5mm	1.5mm
	Copper	1.2mm	1.2mm	1.2mm
	Zinc	1.2mm	1.2mm	1.2mm
	Maximum Bending Angle	135°	135°	135°
Mouth Opening	60mm	60mm	60mm	60mm
Machine Packaging Size LxWxH (mm)	2700 x 800 x 300	3300 x 800 x 300	4000 x 800 x 300	4500 x 800 x 300
